

A.S.P.E.N. Clinical Nutrition Week 2012

Better patient outcomes come in many different forms, but what they have in common is nutrition. Nutrition can help save lives and improve quality of life. Abbott Nutrition Health Institute is committed to providing the resources and educational opportunities that will help develop your professional skills and knowledge.

Overcoming Clinical Barriers: Appropriate Use of Enteral Nutrition
Tuesday, January 24, 2012
5:45 AM - 7:45 AM EST
Walt Disney World Swan and Dolphin Resort, Pacific C

Program seating on a first come, first serve basis

RD CPEU/RN CE Credit 1.5

Program Description:

This presentation will review specific intervention strategies via a multi-disciplinary team approach to help overcome barriers to initiating enteral nutrition over parenteral nutrition in the hospital setting and ultimately, result in improved patient outcomes and reduced costs. The importance of identifying patients who would benefit from early enteral nutrition intervention will also be reviewed.
